

ENERGY FORUM 2017

THE SCIENTIFIC AND TECHNICAL UNION
OF THE POWER ENGINEERS IN BULGARIA
THE NATIONAL ELECTRICITY COMPANY
THE TECHNICAL UNIVERSITY OF SOFIA
SUSTAINABLE ENERGY AGENCY
NATIONAL COMMITTEE ON ILLUMINATION

ORGANIZE

THE INTERNATIONAL ENERGY FORUM 2017

held from 27th to 30th of June 2017
at the International Home of Scientists "F. J. Curie"
Seaside Resort, "St. St. Constantine and Helena"
Varna, BULGARIA

MAIN TOPICS OF THE FORUM

- Strategic and structural problems in energy;
- Prognostication and evaluation of the risk;
- Privatization and liberalization, marketing, legislation, integration and internationalization in the energy area; electric power stations, electricity supply, district heating and gas supply networks, etc.;
- Building of new and modernization of existing power plants;
- Conventional power plants;
- Nuclear power plants;
- Combined cycle and district heating systems;
- Gas supply;
- Rehabilitation of energy equipment;
- Electric networks and systems;
- Efficient use of energy;
- Renewable energy sources: hydroelectric power stations; bio-mass; solar energy; geothermal sources; municipal and industrial wastes etc.;
- Environment protection problems;

- Decentralized energy systems;
- Research, design and implementation activities;
- Control, automation and measuring techniques in the heat and energy processes;
- Lighting problems;
- Hydrogen energy and fuel cells;
- Quality of electric power.

In this already traditional Forum take part scientists, specialists and representatives of enterprises, companies and organizations, who are active in Bulgaria and intend to develop their business in future.

An open and engaged discussion will be initialized between all the partners in the energy sector - state authorities, energy enterprises, scientists, energy producers and users. A contribution to the positive results of the Forum will be made by the participation of foreign and Bulgarian experts as well as of representatives of leading companies from and outside Europe.

Companies and organizations will be provided the opportunity not only to present their activities, but also to establish business contacts with local and foreign partners.

ENERGY FORUM 2017

GENERAL INFORMATION

The Forum will be held from 27 to 30.06.2017 in the International Home of Scientists "F. J. Curie" at the "St. St. Constantine and Helena" Seaside Resort, VARNA, BULGARIA.

1. **Official Languages:** Bulgarian & English.
2. Applications for participation are made by sending the attached forms as follows: **Form "A"** - for all attendants, presenting a paper at the Forum - to be received until **01.03.2017**; **Form "B"** - for all attendants, regardless presenting or not a paper - to be received **till 15.05.2017**.
